

Group _7 - Deliverable 2

Team Members:

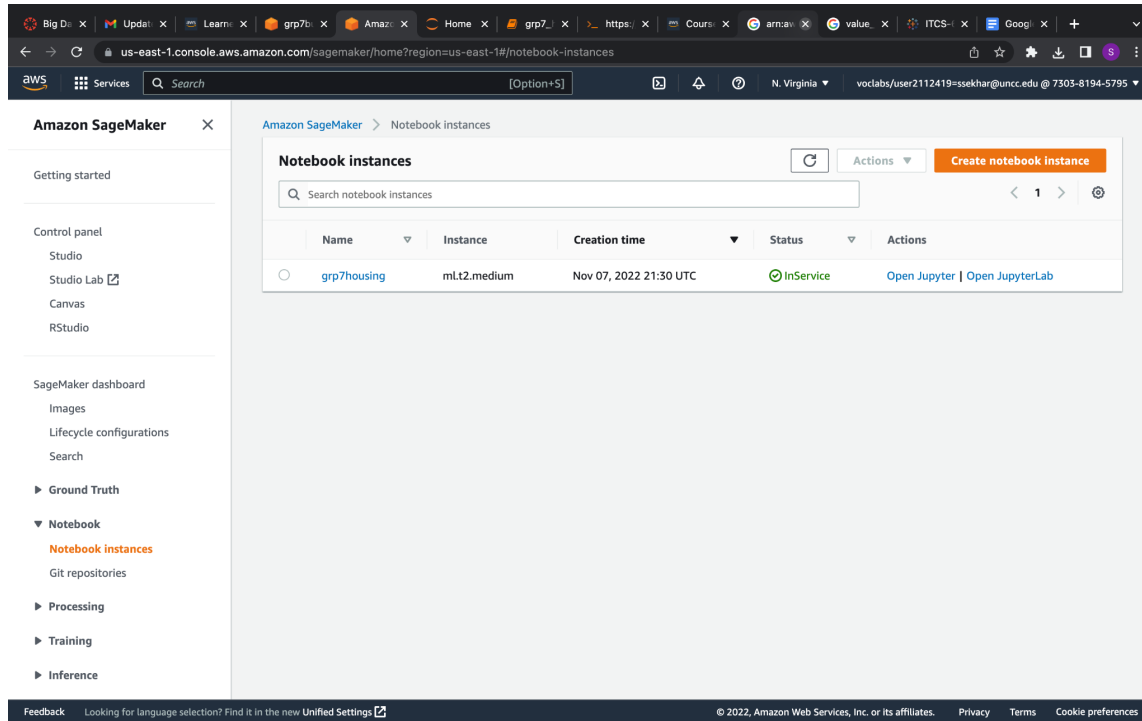

1. Vishwath Kamalanathan
2. Udit Gosh
3. Swetha Natakala Ramakumar
4. Shreya Sekhar
5. Amruth Nag

As we have to do the EDA in Learner's Lab using AWS Sagemaker but delete the instances at the end of our work, we are attaching the screenshots of the bucket, the Sagemaker instance screenshot, and the terminal command screenshot to access the bucket data through ec2 user.

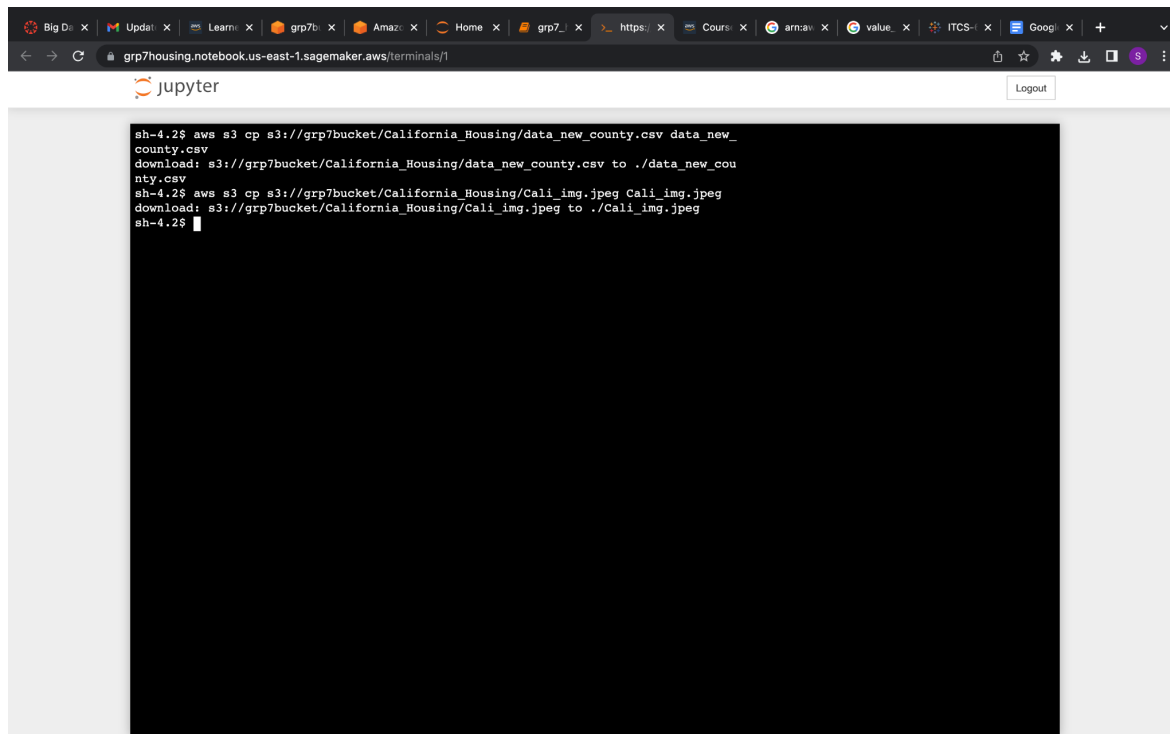

- Bucket with the dataset and California map image used in our EDA

- Sagemaker Instance created for Jupyter notebook

- Terminal Screenshot to access data from AWS S3.
